Susan,

FYI – this is the latest version of the chart to look at.

Yes – Motions to Enter were filed in both 2nd and 3rd CDs.

Thanks Susan.

Also, I think we will need to look at the entire chart re oil and gas – not just the new ones. The list below is only the new ones (which we need green/red recommendations).

A couple of additional questions for OCE:

1) Volkswagen 2nd and 3rd CD – was the motion to enter filed for these CDs?

Subject: 3/31 case chart updates

Greetings – This week’s updated case templates are now available for review. The Superfund chart is available [here](#), and the non-CERCLA chart is available [here](#). Let us know if you encounter any issues accessing these files.

**Please note:* There are a just a few cases that need updated “expected dates” – We will input the updated dates/info as we receive responses from folks.*

To see the track changes version of these documents, open the link and go to “edit document” link and select “edit in word” – that should pull up the track changes version in Word and you can edit the document and the changes will sync to the Sharepoint version when you click save. Any questions – call/email me or Toni and we will be happy to help!

Thanks,
Sarah
